

My Quarterly Progress Report - Quarter 3, 2013

JUANA ROSA GUTIÉRREZ

Skills learnt this semester:

1. To identify breeds of large and small livestock
2. To manage production records
3. To register production data in a satisfactory manner
4. To identify the pests and diseases that affect coffee
5. To draft spreadsheets for registering financial information

ACADEMIC COMMENTS:

In the last few months we have seen Juanita acquire more skills in different activities: managing food preparation processes and creating registers. Order and responsibility are two words which define this student. Furthermore, academically she is one of the highest-scoring students from her year.

My Message

La Bastilla, 25th of October 2013

Dear Sirs from Cupping for Education:

I am sending you a special greeting from La Bastilla. I would like to let you know that in the last few months I have learnt many new things in the area of Food Technology. I can now make 4 different types of cheese, yogurt, bread and cakes and other food products. Furthermore, I have learnt to use different types of equipment in the dairy-plant.

I have learnt new skills in coffee-production, which is one of the other activities which I most enjoy in my college. I can identify leaf-rust and know how to tackle it, how to set up seedling nurseries and how to sow coffee seedlings. I have also learnt soil-conservation techniques.

I am inviting you again to come and visit us. La Bastilla is marvellous.

Juana Rosa
